

Accessibility Statement

The Cricket Alliance is committed to making our website and digital content accessible and inclusive for everyone, including people with disabilities.

We aim to provide an online experience that is easy to navigate, understand and use across a range of devices, browsers and assistive technologies.

Our Commitment

We are continually working to improve the accessibility and usability of our website. Where reasonably possible, we aim to follow the Web Content Accessibility Guidelines (WCAG) 2.2 Level AA, an internationally recognised standard for digital accessibility. [W3C](#)

As part of this commitment, we aim to:

- Use clear, readable content and logical page structures.
- Provide alternative text for meaningful images where appropriate.
- Maintain appropriate colour contrast and readable text.
- Support keyboard navigation where possible.
- Use descriptive headings, links and buttons.
- Consider accessibility when adding new content and functionality.
- Review and improve accessibility as our website evolves.

Third-Party Content

Our website may include links to, or content and functionality provided by, third-party platforms. While we aim to work with accessible services, The Cricket Alliance cannot always control the accessibility of third-party websites, applications or content.

Ongoing Improvements

Accessibility is an ongoing process. While we aim to make our website as accessible as reasonably possible, some areas may not yet provide an optimal experience for every user.

If you experience difficulty accessing any part of our website, please contact us. We will make reasonable efforts to provide the information you need in an alternative format or address the accessibility issue where possible.

Contact Us

If you have an accessibility question, suggestion or experience an issue using The Cricket Alliance website, please contact:

The Cricket Alliance
Email: [insert email address]
Website: [insert website address]

We welcome feedback that can help us improve the accessibility and usability of our website.
